👤 PROFILE

Highly motivated and results-oriented C# and .NET Developer with a passion for creating innovative and user-friendly software solutions. Experienced in designing, developing, and implementing enterprise-grade applications. Eager to contribute technical expertise and collaborative problem-solving skills to a dynamic development team.

📁 PROFESSIONAL EXPERIENCE

MDC Uzbekistan | Software Developer

12/2023 – present | Tashkent, Uzbekistan

- **Contributing actively to project development with a focus on social responsibility and community development .**
- **Working on the translation of the book dedicated to teach modules of .Net to the young generation.**

📁 PROJECTS

INNOPlatform 📄

INNOPlatform is a platform for financing innovations
12/2023 – 12/2023

We developed the INNOPlatform web platform designed to connect young professionals with funding opportunities. Awarded by the Youth Affairs Agency, this project aims to empower young people by providing them with the resources they need to bring their ideas to life.

Yaxshilik Elchisi 📄

A site and telegram bot created for charity
01/2024 – 02/2024

Yaxshilik Elchisi(Ambassador of goodness)
Yaxshilik Elchisi is a beacon of hope that empowers people to be agents of positive change in their communities. Donations can be made through a user-friendly website and an interactive Telegram bot.

Zeemlin 📄

Project that develops education
11/2023 – present

- The project will be completed in March 2024
- I developed Zeemlin, a web-based learning management system (LMS) that simplifies course and group management for teachers and improves communication and learning tracking for parents. Parents can track their child's progress, access learning materials and receive real-time updates. Implemented features such as online assignments, competitions, automated grading and ranking reports
